

Instrument/Manifold heater for use in Hazardous Area with power output of 25W. The heater are designed for direct heating of manifolds to prevent waxing. Heater must be connected to a circuit breaker max. 1A, FCB (Fuse Carrier Box) customized to Manifold heater for field use are available.

Technical data:

Material:	ASI316L
Ex-protection:	II 2G Ex mb IIC T4 Gb
Voltage:	230-240 VAC 50/60 Hz
Power:	25 W
Approval:	Sira 16ATEX 5317X IECEx SIR 16.0092X
Electrical protection:	1A Acc. Clause 7.9 of EN 60079-18
Ambient temperature:	-40°C to 40°C
Flying lead length:	2 meters (standard)

Description	Dimension in mm	Elcor part no.
Manifold heater OCIH220	60x33x30	1500.995
